

## Case

# CompactDry × Facial mask

## Customers

### Taiwan Famous Brand of Facemask

Taiwan's famous mask brand produces more than 100 million sheets per year. Exports to Southeast Asia.

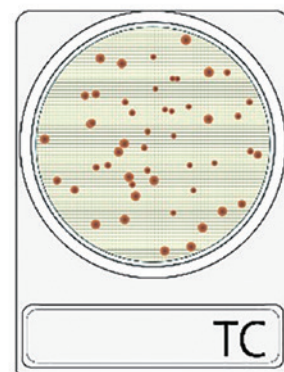

## Issues

TC is widely required to test a project in various products. It is also required to be tested in the cosmetics industry. It is especially important in cosmetics such as mask solution and so on. Because microorganisms and fungi will make the mask fluid deteriorate and the viscosity decrease, so it's a big enemy for cosmetics.

## CompactDry

CompactDry is the ready-to-use media which is already prepared necessary ingredients for the target bacteria. There are not only hygiene indicator bacteria but also several pathogens in the lineup. CompactDry TC is validated by the international accredit body. It was suitable for Taiwan cosmetics Exporter to do daily screening detection test on their cosmetics Exporter.

## Applications

Taiwan facial mask brand and mask OEM industry are one of the most important industries in Taiwan and have a high proportion in the world. There are hundreds of millions of sheets exported from Taiwan every year. With continuous orders, there are high requirements for efficiency and speed of export. Therefore, in order to speed up the of quality and accuracy of inspection. Some facial mask brands in Taiwan change the traditional method to CompactDry with Shimadzu Diagnostics Corporation. And the profit of the facial mask is very high, so changing from traditional method to fast testing method for speeding up shipment is helpful to the overall profit.
