DAWN BRANDS

DAWN BREAD is the top brand in the bakery industry of Pakistan. Golden Harvest Foods provides local households with various type of the bakery products such as BREADS, BUNS, CUP CAKE, RUSK and DOUGH PRODUCTS.

CompactDry

In the Lab of Golden Harvest Foods, CompactDry is used for the Microbiology Quality Test. This culture media is the ready-to-use type, and enables the test processing time to reduce, compared to the Conventional Test Method.

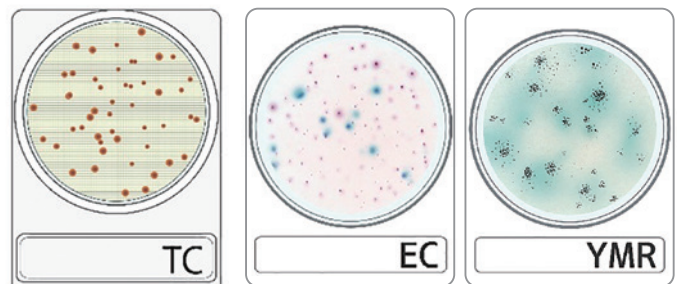

The Petri-dish with a lid makes low risk of the contaminations

Stackable;

Applications

A QC lab in Golden Harvest Foods, they do strict microbiology controls on not only finished products, but also raw materials to provide with quality & stable bakery products, every day. They use CompactDry which is convenient & rapid, in the regular microbiology test in the lab. Prepaed type of media helps to test a large number of testing sample.

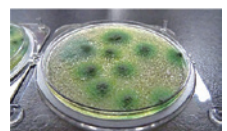

A rapid detection time helps to release the finished products out to the stores, i.e. CompactDry YMR enables the detection time to see from the third day.
